PET/CT Replacement Project and Plans for Service Continuity

The Imaging Center at Hartford Hospital is planning for the replacement of its current PET/CT scanner, in place since 2002. The new 64-slice PET/CT will allow us to perform a wider variety of scans, provide better imaging quality and decrease the radiation dose to our patients.

The project involves the removal of the current scanner and significant renovations within the Nuclear Medicine Department on the 2nd floor of the High Building. The timeline extends for three to four months.

In conjunction with the Facilities Department, Biomedical Engineering and the Radiation Safety staff, the planning has led to a solution that assures continuity of services by providing a temporary, mobile PET/CT unit to be installed outside the Helen and Harry Gray Cancer Center. This will occur on Sunday, July 29, 2018. We expect the temporary unit to be fully operational by Monday, August 6, 2018.

Beginning Monday, August 6, all outpatients normally having a PET/CT study in the Hartford Hospital Nuclear Medicine Department will have their study performed on the scanner in the mobile 'trailer' unit located outside the entrance to the cancer center. Inpatients cannot be accommodated in the mobile unit and will be handled on a case-by-case basis. The scheduling and registration process will remain the same.

This temporary arrangement is expected to last through the first week of November 2018.

Please be assured this is a safe and widely-used method of providing for PET/CT scanning within the community; in fact, such mobile units are used throughout the country, including other areas within Hartford HealthCare.

Contact Darren Bonneau at 860.972.3888 with any questions.

Join us at the Medical Staff "End of Summer Event"

September 21 from 6 to 9 p.m., New Britain Museum of American Art, 56 Lexington Street, New Britain

Join your colleagues from the Hartford Hospital Medical Staff on Friday, September 21, for an amazing evening at the New Britain Museum of American Art.

You and your guest are invited to join the Officers and other members of the Hartford Hospital Medical Staff for this special evening as a unique opportunity for members of the Medical Staff to socialize and enjoy each other's company.

You will have exclusive admission to the gallery spaces including the works of Howard Pyle, Frederic Rodrigo Gruger, N. C. Wyeth and Norman Rockwell, to name a few.

The evening will feature appetizers, small plates bursting with bold flavors and sweet endings as well as wine, beer and other beverages brought to you by Riverhouse Catering.

The cost is \$50 per person. To reserve your space:

- by credit card, call Cathleen Aquino at 860.972.6167
- by check, drop off at 85 Jefferson Street, JB 114, or mail to Medical Staff Office, Hartford Hospital, 80 Seymour Street, PO Box 5037, Hartford, CT, 06102-5037.

Please respond by September 7.

Hartford Hospital Leaders Host New Provider Welcome Reception

Hartford Region President Bimal Patel and other Hartford Hospital leaders hosted a welcome reception for new providers on July 19, 2018.

The event, held at the Hartford HealthCare Bone & Joint Institute at Hartford Hospital, offered an opportunity for the executive leadership team to have in-depth conversations with each new physician in attendance and listen to their feedback about practicing medicine.

New physicians were able to learn about the campus and the HHC system. The doctors in attendance were also invited to engage with leaders about what can be done to make them feel welcome and supported.

In Memoriam: Dr. Bruce F. Bower

Dr. Bruce F. Bower passed away peacefully at the age of 84 after a long battle with the Lewy Body variant of Alzheimer's disease in his home in Needham on July 6, 2018 surrounded by his loving family.

Dr. Bower graduated from Vanderbilt University in 1954 and received his

medical degree from The Johns Hopkins School of Medicine in 1958. Following his internship and residency at Peter Bent Brigham Hospital in 1960, he did his post graduate work at the National Institute of Health in Kidney and Electrolyte Metabolism and then moved to San Francisco where he studied Clinical Endocrinology at the University of California. In 1965, he moved back to Boston where he completed a senior residency in Internal Medicine at Massachusetts General Hospital and began private practice in Endocrinology at Hartford Hospital.

He served as chief of the Diabetes & Endocrinology Division at Hartford Hospital from 1975 to 2002 and taught at the University of Connecticut School of Medicine from 1986 to 2004. He authored numerous articles for national medical journals and received awards for his medical expertise and patient care. He was awarded Distinction in Clinical Endocrinology from the American Association Clinical Endocrinology in 2004 and Distinguished Clinician from the American Diabetes Association in 2000. In addition to his vast clinical expertise, he was a loving husband and devoted father.

A luncheon will be held on September 29, 2018, at The Hartford Golf Club in West Hartford to celebrate his life. Remembrances can be sent to Betsy Bower at 865 Central Ave., B-404, Needham, Mass., 02492.

Noteworthy and New

Announcements, news and information

Bimal Patel Shares Hartford Hospital Pride with Community Leaders

At recent gatherings of the Metro Hartford Alliance and Leadership Greater Hartford, President Bimal Patel delivered remarks about Hartford Hospital's unique role as both a quaternary care hospital to the region and community hospital to the City of Hartford. He also shared news of the hospital's recent growth initiatives and economic impact. In 2018, Hartford Hospital will have a direct impact of more than \$2 billion on the state and local economy.

In early June, Bimal welcomed Leadership Greater Hartford to the world-class Bone & Joint Institute and introduced them to all the services and expertise the facility has to offer. He described Hartford HealthCare's approach to integrated care delivery and explained how the organization is working to become the most trusted for personalized care in the northeast and beyond.

2019 Black & Red to Benefit Brownstone Ambulatory Care Services

The Brownstone Ambulatory Care Services will be the 2019 beneficiary of Hartford Hospital's annual gala, the Black & Red. The program will be recognized at the event for their longstanding commitment to serving the

most vulnerable in our community. The Black & Red will be held on Saturday, January 26, 2019, and will feature entertainment by singer, songwriter and actress Cyndi Lauper.

Tickets for the hospital's signature fundraiser will go on sale in the coming months. For information on how to sponsor the Black & Red, contact Carla Burgess, director of development, at carla.burgess@hhchealth.org or 860.972.1932. For event updates, visit giving.harthosp.org/blackandred.

Goal: Zero Prostate Cancer

Hartford HealthCare hosted the Zero Prostate Cancer 5K Walk/Run at Dunkin' Donuts Park in Hartford Saturday, June 30. It's the second year the largest national men's health event occurred in Connecticut. Hartford HealthCare's Tallwood Urology & Kidney Institute was the host sponsor and the HHC Cancer Institute was the presenting sponsor.

Transplant Center Honored with National Kidney Registry Award

The Hartford Hospital Transplant Center received the 2018 National Kidney Registry Excellence in Teamwork Award. The Excellence in Teamwork Award goes to National Kidney Registry (NKR) member centers that demonstrate excellence in working together to complete a complex kidney swap.

Hartford Hospital worked with nine other centers to complete one of the most challenging swaps of the past year, which involved 18 surgeries and ultimately resulted in nine life-saving transplants.

This award was presented during the annual NKR Season of Miracles Awards Gala on June 28 at the legendary Rainbow Room in New York City.

Milestone Achievement in Stroke Care

Hartford Hospital has received the American Heart Association/American Stroke Association's Get With The Guidelines®-Stroke Gold Plus Achievement Award with a Target: Stroke Honor Roll Elite Plus designation for the second year in a row.

The Elite Plus award is the highest designation available and recognizes the team, under the leadership of Dr. Mark Alberts and Dr. Amre Nouh, for using the most up-to-date evidence-based treatment guidelines to improve patient care and outcomes.

Recognizing Excellence

Awards, accolades and achievements

Adam Steinberg Named Regional Medical Director of Quality

Adam Steinberg, DO, FACOG, FACS, began work as Hartford HealthCare Regional Medical Director of Quality for the Hartford Region on July 9, 2018. In this role, Dr. Steinberg is responsible for overseeing physician leaders in the development and implementation of quality and patient safety initiatives across the organization. He will work collaboratively with the medical staff, senior management, nursing staff, other employees, board members, and patients to instill a culture whereby everyone at Hartford Hospital will take a proactive role in improving quality and safety.

Prior to this role, Dr. Steinberg spent 10 years in the Division of Urogynecology at Hartford Hospital as a well-respected urogynecologist. He earned his Doctorate degree from Philadelphia College of Osteopathic Medicine and went on to complete his training at the University of Medicine and Dentistry of New Jersey Robert Wood Johnson Medical School at Camden Cooper University Hospital. He is currently attending the Heller School for Social Policy and Management at Brandeis University in Waltham, Mass, for his Executive MBA.

Dr. Steinberg will report to Dr. Ajay Kumar, regional vice president of medical affairs for the Hartford region, and can be reached at 860.671.5161.

Bone & Joint Institute Welcomes Ted Blaine as New Physician-in-Chief

The Hartford HealthCare Bone & Joint Institute welcomed its new physician-in-chief, Dr. Theodore A. Blaine, at a reception during the Travelers Championship at the TPC River Highlands in June.

Dr. Blaine is recognized nationally and internationally for his expertise in orthopedics. He completed his medical school training at UCONN, post-doctoral training at Brown and Yale, and an orthopedic surgery residency and fellowship in orthopedic research at the University of Rochester. He went on to complete a fellowship in Shoulder and Elbow/Sports Medicine at Columbia University and served as a visiting fellow in Elbow Surgery at the Mayo Clinic.

"The Bone & Joint Institute is growing at a rapid pace with the recent opening of two new operating rooms and a dozen new inpatient rooms," said Bimal Patel, president of the Hartford Region and senior vice president of Hartford HealthCare. "As both a renowned physician and distinguished leader, Dr. Blaine is the perfect person to lead during this time of tremendous opportunity."

Dr. Blaine currently performs the highest volume of shoulder replacement operations in Connecticut and has an excellent reputation for quality outcomes in these surgeries. He has received numerous postgraduate honors and teaching awards and has been recognized as one of the Best Doctors in America.

Courtland Lewis Honored in Fond Farewell

Dr. Courtland Lewis retired from his role as physician-in-chief of the Hartford Healthcare Bone & Joint Institute last month, ending his term as the inaugural leader of Connecticut's only hospital dedicated exclusively to orthopedics.

Lewis, who joined the Medical Staff in 1990 and assumed a leadership position in 2013, played a key role in the institute's move to its new state-of-the-art hospital. He oversaw a period of 48 percent year-over-year growth in joint replacement surgeries and a nearly 30-point improvement in patient experience scores.

Dr. Lewis was honored in a retirement reception in June by leaders from across Hartford Hospital and Hartford HealthCare.

"We owe a debt of gratitude to Dr. Lewis for his leadership at the dawn of the Bone & Joint Institute," said Bimal Patel. "He was there through it all and made the Institute a success from the moment the doors opened. He has never wavered in his dedication to our mission: ensuring that our team delivers the safest, highest quality care to our patients."

Reflecting on his tenure during the Institute's first birthday celebration, Dr. Lewis said, "Opening a new hospital was pretty complicated and I'm proud of the more than 200 people who persevered and put it all together."

John Santopietro Named Physician-in-Chief of HHC Behavioral Health Network

John Santopietro, MD, DFAPA, has been named Hartford HealthCare Behavioral Health Network's first Physician-in-Chief. Dr. Santopietro will also be a Senior Vice President for Hartford HealthCare and will report to Jeff Flaks beginning October 1.

In this role, Dr. Santopietro will build on the groundbreaking work of Harold (Hank) Schwartz, MD, Psychiatrist-in-Chief for the Institute of Living (IOL) and Vice President of Behavioral Health. As previously announced, Dr. Schwartz will step down from his leadership roles on September 30. He will remain part-time as Psychiatrist-in-Chief Emeritus at the IOL.

Dr. Santopietro most recently has been President and Medical Director of Silver Hill Hospital in New Canaan, Conn. Silver Hill is a nationally recognized, 124-bed hospital for the treatment of psychiatric and addictive disorders. Previously, he was Chief Clinical Officer for Behavioral Health and Chairman of the Department of Psychiatry at Carolinas HealthCare System in Charlotte, N.C., one of the nation's largest not-for-profit healthcare systems.

He has also served as medical director for Outpatient Psychiatry at Middlesex and Day Kimball hospitals and at Ingraham Inc., a nonprofit mental-health agency in Portland, Maine.

Dr. Santopietro has a career-long track record of leadership that promotes and embraces servant-leadership, feedback and quality improvement based on standard work. In other words, he is a great fit for our H3W culture. He views

his role with HHC as an opportunity to answer a call to rejoin people on the front lines of public health and community psychiatry — truly passion-driven work.

Working with Pat Rehmer, HHC Senior Vice President and President of the Behavioral Health Network, and her leadership team, he will focus on removing variation and improving quality wherever we serve the behavioral health needs of patients and families.

A Yale University graduate, Dr. Santopietro earned his MD at Northwestern University Medical School, completed an internship and residency in psychiatry at Cambridge (Mass.) Hospital and a fellowship at the Austen Riggs Center in Stockbridge, Mass., annually ranked among the top psychiatric hospitals in the country by U.S. News & World Report. A member of a number of professional organizations, he has published and lectured extensively, especially on the use of technology to enhance the delivery of behavioral health services.

Patricia DeFusco Named Director of HHC Cancer Institute Breast Program

Patricia A. DeFusco, MD, will assume the role of director of the Hartford HealthCare Cancer Institute Breast Program on October 1, 2018. In this role, Dr. DeFusco will help further our ambitious vision of building the region's most comprehensive breast program that provides patients with compassionate care coordinated among a team of specialists and access to the latest therapies.

Dr. DeFusco - whose commitment to personalized, compassionate patient care was recognized by the Malta House of Care with its Wonder Woman Award in 2013 - has led the system's Breast Disease Management Team since its implementation five years ago. She has guided the development of breast standards of care across the Cancer Institute, promoted clinical research and established a strong relationship with Memorial Sloan Kettering Cancer Center clinicians. Such extensive experience will be a tremendous asset in her new position.

Dr. DeFusco has been a senior attending physician at Hartford Hospital for almost three decades while in private practice at Starling Physicians. She earned her medical degree from Boston University School of Medicine, completed a residency in internal medicine and a fellowship in advanced internal medicine, both at Hartford Hospital, before completing a fellowship in medical oncology at the Mayo Clinic.

Dr. DeFusco serves as a clinical instructor at the University of Connecticut School of Medicine. Since 1989, she has served as the principal investigator (PI) of the National Surgical Adjuvant Breast and Bowel Project (NSABP) and continues in the role of corresponding PI for NRG Oncology. She was also the PI for the nine-hospital Connecticut Task Force which participated in the pivotal NSABP Prevention Trial and the follow-up NSABP STAR trial. She served on the NSABP Board of Directors from 2005-2009 and is currently a member of the NRG Human Research Committee.

Dr. DeFusco will leave practice at Starling Physicians in mid-September but will continue to see patients as a member of the Hartford HealthCare Medical Group in Avon and the soon-to-be-opened health center at 376 Tolland

Turnpike, Manchester. For questions about new referrals or to transfer care to Dr. DeFusco's new practice, please call 860.972.8800.

In Brief

Dr. Paul D. Thompson and **Dr. Antonio Fernandez** were faculty members at the American College of Cardiology's Sports Cardiology Summit in Park City Utah from June 23 to 26, 2018. Drs. Thompson and Fernandez discussed managing coronary disease in middle-aged athletes. Dr. Thompson lectured on managing hypertension and hyperlipidemia in the same population.

Coming Up

Education and events

September 4

Ribbon-Cutting Ceremony for the new Hartford Hospital Inpatient Rehabilitation Unit

Conklin Building, 6th Floor

5:30 to 7 p.m. (remarks will begin at 5:45 p.m.)

Join us for tours and refreshments as we unveil a brand new unit dedicated to providing specialized physical, occupational and speech therapy. This added service along our continuum will help patients return home faster and healthier to their most optimal quality of life following an illness or injury.

September 21

End of Summer Event

New Britain Museum of American Art

6 to 9 p.m.

Join the Medical Staff Officers and your colleagues from the Hartford Hospital Medical Staff for a unique opportunity to socialize and enjoy each other's company. More details to follow!

September 23

A Review to Renew: Addressing the State Mandated CMEs for CT Medical License Renewal for Physicians and APRNs (Part Two)

Hospital of Central Connecticut, Lecture Rooms 1 and 2

7:30 a.m. to Noon

The next session of our CME series addressing the State of Connecticut required education for physician and APRN license renewal is Sunday, September 23, 2018, from 7:30 a.m. to noon, at HOCC. Providers must take these classes once every six years. Topics will include:

- Sexual Assault and the Forensic Examination
- Opioids and Pain Management
- PTSD and Substance Abuse in Veterans

- Depression and Suicide in Veterans

Space is limited and registration is required using the following steps:

1. Log in to your CME account [here](#). (If you don't have an account, use the same link and click "Create Account")
2. Choose "View Upcoming Events"
3. Register and pay for each day separately. Fee per day is \$15 for HHC Privileged Providers and \$20 for non-HHC Privileged Providers

Please contact ContinuingEd@HHCHealth.org with any questions.

September 25

13th Annual Interdisciplinary Transplant Symposium

Sheraton Hartford South, Rocky Hill

7:45 a.m. to 4 p.m.

Join Hartford Hospital experts as they present cutting edge information in the fields of kidney, liver and heart transplantation. Participants who attend this symposium will be able to apply updated therapies to the care of individuals with end stage organ disease.

Click [here](#) to learn more and register.

October 3

34th Annual Cardiovascular Symposium

Connecticut Convention Center, 100 Columbus Blvd., Hartford

7 a.m. to 3 p.m.

This one-day CME-accredited symposium allows cardiac health care professionals to learn recent advances in the management of cardiovascular disease patients from leading experts in the field. Attendees will leave able to:

- Describe anticoagulation indications & options for atrial fibrillation patients, including peri-procedural management
- Understand the effect of gravity and the upright posture on human cardiovascular physiology
- Reassess the relevance of rupture of a "vulnerable" plaque in the current era and explore the influences in secular trends in preventive interventions on human atherosclerosis
- Understand ischemic stroke classification and cryptogenic stroke
- Recite the differential diagnosis of an elevated highly sensitive troponin and recognize the difference between 'conventional' and highly sensitive troponin methods
- Assess the severity of ischemic mitral regurgitation and become familiar with various treatment modalities
- Identify which patients qualify for PCSK9 therapy and discuss how to manage patients with low HDL-C levels

Hartford HealthCare designates this live activity for a maximum of 5.25 AMA PRA Category 1 credit(s).™

Please visit www.hartfordcvsymposium.org for more information and to register.

Planning a CME Activity?

- The CME department encourages program planners to begin the application process as far in advance of the CME activity as possible.
- Visit the HHC CME [website](#) to learn more about CME Offerings
- Click [here](#) to request an application today
- Contact continuinged@hhchealth.org to schedule a planning session

For Your Information

Other things you ought to know

Did You Know?

If you are paged and asked to call a five digit extension from outside the hospital, the first number of the extension offers a guide to which phone number you should call:

<u>If you are paged to call:</u>	5.xxxx	<u>the full number is:</u>	860.545.xxxx
	2.xxxx		860.972.xxxx
	6.xxxx		860.696.xxxx

New Inpatient Rehab Unit: Admission Criteria and How to Make a Referral

Hartford Hospital will open the doors to its brand new 26-bed inpatient rehabilitation unit on Sept. 6. The intensive rehab offered on the unit will help patients who have suffered a severe illness or injury gain a greater level of independence and return to home with a better quality of life.

Patients must meet the following admission criteria:

- Require active and ongoing intervention of multiple therapy disciplines
- Require intensive rehab therapy program consisting of 3 hours of therapy per day at least 5 days per week
- Require close supervision by a rehabilitation physician
- Expected to actively participate in and benefit from the program
- Require an intensive and coordinated interdisciplinary team approach to the delivery of care

Appropriate patients:

- Stroke
- Brain injury/spinal cord injury
- Neurological/neuromuscular disorder
- Multiple trauma
- Amputation
- Complex joint replacement surgery
- Cardiac/Pulmonary
- Deconditioned patient

Call 860.972.0990 to make an admission. Appropriate patients will be reviewed by the case coordinator, therapy team, nurse liaison and physiatrist.

Do you have patients requiring respite care during the summer months?

Hartford HealthCare Independence at Home will care for patients while their caregiver takes a vacation or some well-deserved time off.

Independence at Home offers:

- Lifeline / emergency response units
- Personal Care Attendants (hourly care)
- Homemaking
- 24/7 Live-in care
- And more

Call us for details at 1.888.863.2771 or [click here](#) to view a flyer you can share with patients.

Help Patients Find You with "Find a Doc"

The "Find a Doc" feature on our website is a great tool that helps patients locate our physicians. Patients search for a physician many ways – often directly by name, by a specialty, or by a targeted location. It's important that your profile is up to date and references everything you would want a prospective patient to know about you.

When you have a few moments, please check your profile by visiting www.hartfordhospital.org and click on "Find a Doctor." Then type in your name.

Requesting an update is quick and easy. Just click on the "Request a Change" button on the right-hand side of the page.

Need IT or EPIC Help?

If you need help with EPIC, the contact phone number is different from the number used for other information technology needs.

The Care Connect (EPIC) Help Desk can be reached at 860.972.EPIC or 2-EPIC (860.972.3742).

The IT Service Desk can be reached at 860.545.5699.

[Sniffles? Cancer? Under Medicare Plan, Payments for Office Visits Would Be Same for Both](#)

The Trump administration is proposing huge changes in the way Medicare pays doctors for the most common of all medical services, the office visit, offering physicians basically the same amount, regardless of a patient's condition or the complexity of the services provided.

Administration officials said the proposal would radically reduce paperwork burdens, freeing doctors to spend more time with patients. The government would pay one rate for new patients and another, lower rate for visits with established patients.

[Health systems look to mend fractured consumer experience](#)

When Terry Shaw's wife was still in a hospital bed recovering from a car accident, a nurse handed her a packet of discharge instructions several inches thick. The packet included recommendations to follow up with three physicians. But finding an outpatient neurologist who would treat a car accident patient was even difficult for Shaw, CEO of Adventist Health System.

[Over Half Of Patients And Families Hesitate To Raise ICU Safety Concerns, Study Finds](#)

Imagine you're in the intensive care unit at the bedside of your loved one, and you think you see a medical mistake — a wrong pill, an unwashed hand. Do you speak up? Even if you're afraid that might annoy or alienate the medical team?

It's a delicate question, and a new study out of Beth Israel Deaconess Medical Center — the first ICU study of its kind — documents just how delicate. The researchers surveyed more than 100 family members in the ICU and more than 1,000 online about whether they'd feel comfortable speaking up about various concerns.

[Primary-care physicians in short supply in Conn.](#)

Due to the hectic schedule and other strenuous factors, more medical students are choosing specialty fields such as cardiology or obstetrics. As a result, the nation is facing a shortage of primary-care doctors. One study from the Robert Graham Center: Policy Studies in Family Medicine and Primary Care shows Connecticut needs 404 additional primary-care physicians by 2030 to avoid a shortage.

The Graham Center study shows Connecticut had 2,580 practicing primary-care physicians in 2010, which amounts to 1,385 residents per doctor. That ratio is already lower than the national average. To maintain it, Connecticut needs to boost the number of practicing physicians by 15 percent to keep up with a growing, and aging, population.
